## Windjammer SS/IV Vindicator/II Supplementary Instructions

### WARNING

THIS BRACKETING AND THESE INSTRUCTIONS WERE DESIGNED SOLELY FOR USE IN MOUNTING THE VETTER WINDJAMMER IV/SS AND VINDICATOR/II FAIRINGS TO THIS SPECIFIC MOTORCYCLE. IF YOU ARE UNABLE TO DETERMINE IF THIS HARDWARE IS FOR YOUR MOTORCYCLE, CONTACT YOUR DEALER. IF YOUR DEALER IS UNAVAILABLE, CONTACT THE CUSTOMER SERVICE DEPARTMENT, VETTER CORPORATION, 1150 LAUREL IN, SAN LUIS OBISPO, CA. 93401, (805)541-2900. THESE INSTRUCTIONS CONTAIN VALUABLE INFORMATION FOR FUTURE REFERENCE. THEY MUST BE GIVEN TO THE CUSTOMER!

### HOW TO USE THESE INSTRUCTIONS:

These Supplementary Instructions are keyed step-by-step to the General Mounting Instructions, and are designed to be used at the same time. We recommend that you circle any step in the General Mounting Instructions which has a corresponding step in these Supplementary Instructions. IT'S THE EASY WAY! After you've circled the correlated steps, you'll begin with the General Mounting Instructions, referring to the Supplementary Instructions when you're reminded by the circled step there.

Read through all the instructions completely before attempting installation. Pay close attention to notes referring you from one set of instructions to another.

# prepare the motorcycle

E. Disconnect tachometer cable from the instrument.

## Electrical Connections

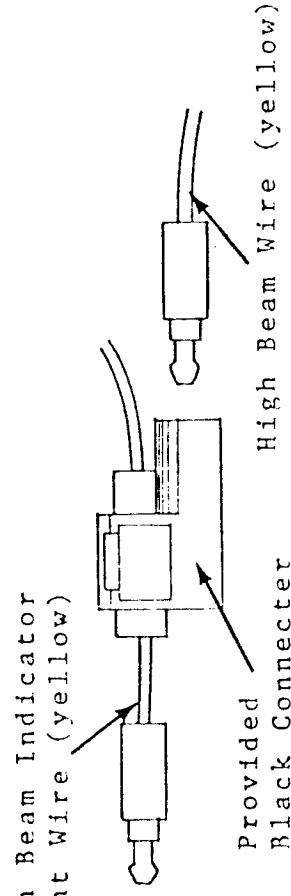

### CAUTION

DUE TO THE LIMITED CHARGING CAPABILITIES OF SOME SMALL MOTORCYCLES IN THE 550cc. AND SMALLER RANGE, VETTER CORPORATION DOES NOT RECOMMEND THE USE OF OUR OPTIONAL QUARTZ HEADLIGHT, OTHERWISE THE MOTORCYCLE'S BATTERY MAY NOT MAINTAIN A CHARGE. ALSO, IT MAY BE NECESSARY TO DISCONNECT THE FAIRING'S RUNNING LIGHTS.

FAIRING WIRE	FUNCTION	SPECIAL ELECTRICAL COLOR CODE	MOTORCYCLE WIRE
White.....	High beam.....	Yellow.....	
Yellow.....	Low beam.....	Green.....	
Black.....	Ground.....	Black.....	
Violet.....	Left turn signal....	Brown.....	
Blue.....	Right turn signal...Dark Olive Green....		
Green.....	Running Lights.....	Light Blue.....	
Red.....	Cigarette lighter...Light Brown.....		
Brown.....	Accessory(horn option)Battery Wire.....		
Orange.....	Accessory(horn option)Pink.....		

NOTE: Orange and brown wires are accessory wires. Only if they are to be used with the horn option should they be connected as stated as above.  
VINDICATOR ONLY: There will be two extra wires left after connecting the Vindicator wiring harness. Please tape these off.

- A. route external harness into the back of the nacelle through the top hole.
- B. Crimp the provided black connector onto the high beam indicator light wire which is yellow color coded.
4. Plug high beam wire into the black connector and tape the assembly to prevent electrical short. See illus.

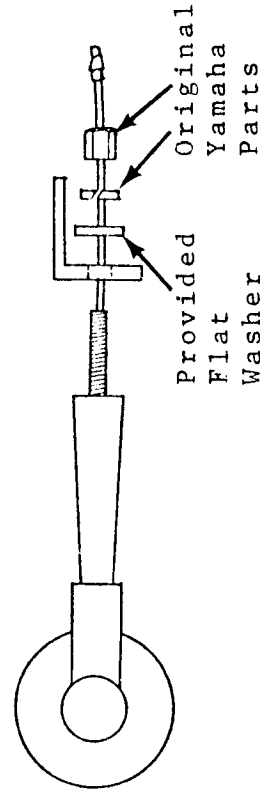

### 3. Install Mounting Bracket

- B. Secure the bracket loosely to the frame by inserting the provided bolt (8x75mm.) through mounting bracket's tabs and the hole in the frame.
- E. After everything is lined up, tighten the mounting clamps first, and then the bolt at the top.
- F. Route the tachometer cable below the hardware crossmember of the mounting bracket and place it back in it's receptacle at the instrument.

### 5. Vindicator turn signals

- A. Mount turnsignals as shown.
